ON CONTROVERSIES
IN VENTRAL HERNIA REPAIR

Date: Friday October 31st
Time: 09:30 – 16:00

Auditorium C
Department of Surgery D
Glostrup University Hospital

COVIDIEN
positive results for life

SPONSORS

Auditorium C: placed as nr. 7 on the map

Preface

We would like to invite you to participate in the 5th Scandinavian Symposium on treatment of ventral hernias.

This year we focus on treatment of parastomal hernias and include presentations on complications and their treatment. For this purpose we are honoured to present Dr. Filip Muysoms, Belgium, who has a large experience in laparoscopic ventral and parastomal herniotomy. Dr. Muysoms will be the President of the European Hernia Society Congress 2011 in Gent.

Dr. Salvador Morales-Conde from Seville, Spain will perform a laparoscopic parastomal herniotomy live and will give a lecture on his last research and his experience in difficult ventral and parastomal herniotomy.

Dr. Pål Wara will present a large Danish material on laparoscopic parastomal herniotomy and eventually Professor Lars Nannestad Joergensen, will present an update of the National Danish Ventral Hernia Database and discuss complications to this procedure.

We hope that this program apply to all Scandinavian surgeons with interest in the challenges in treatment of ventral hernias.

Program

09:30-09:45 REGISTRATION, WELCOME AND COFFEE

- *Dr. Svend Schulze, Hvidovre, Denmark*

09:45-11:15 LIVE OPERATION

Laparoscopic repair of parastomal hernia
- *Dr. Salvador Morales-Conde, Seville, Spain*

The operation simultaneously transmitted to the auditorium with the possibility of discussion with surgeons.
- *Moderator Svend Schulze*

11:15-16:00 LECTURES AND DISCUSSIONS

Laparoscopic repair of parastomal hernias
- *Dr. Filip Muysoms, Gent, Belgium*

12:00-13:00 LUNCH

Laparoscopic repair of parastomal hernia and treatment of complications
- *Dr. Salvador Morales-Conde, Seville, Spain*

Danish experience of repair of parastomal hernia
- *Dr. Pål Wara, Århus, Denmark*

14:00-14:30 COFFEE BREAK

Complications of laparoscopic ventral herniotomy
- *Dr. Filip Muysoms, Gent, Belgium*

Morbidity and mortality after surgery for ventral hernia. Danish National Health Register
- *Professor Lars Nannestad Joergensen, Bispebjerg, Denmark*

15:30-16:00 General discussions and closing remarks

Organizing committee: Svend Schulze & Viggo Kristiansen
